BOYCOTTING CANADIAN SILVER. Rochester Merchants Will Only Take

Rochester, N. Y., Sept. 21.—Notices were posted in all the banks of the city this morning to the effect that no Canadian silver money would be received on deposit. This action is the result of agitation, which has been going on in the local banking circles on this subject for a number of days. It was stated, however, that the boycott has been started by business men and is the outcome of a sentiment against Canadians on account of their refusal to take United States money.

From now on all Canadian silver will be subjected to a discount of 20 per cent. This will practically drive it out of circulation in this city. It at 20 Per Cent Discount.

Business, Bread and Blessings; Or Bryan, Bunco, and Bankruptcy.

Why, our opponents tell us that they want a dollar that will go all over the world. We have had dollars which have gone over the world so rapidly that we want a dollar that will stay at home without a curfew law. Our opponents tell us that they want a doilar which they can see anywhere in the world if they travel abroad. I em not so much worried about our dollars which travel abroad. I want a dollar that won't be ashamed to look a farmer in the fecs.-Bryan at Fredericksburg, Va.

Mr. Bryan is right. Depreciated money stays at home, but will any citizen of the United States dare look the rest of the world in the face if we adopt a dishonest money? Mexico has 53cent dollars. They stay at home. The debased money of Central and South America is worth from 40 to 53 cents on the dollar. It stays at home. Silver standard Russia, China and India have cheap money that does not show itself abroad, and neither of these countries has sufficient respect for working people to pay them living wages. Their cheap-labor wheat, cotton, rice and other products go abroad, however, to cheapen the prices of similar products from civilized people, and give rise to such movements as the one Mr. Bryan now represents.

It is not expected that free coinage would reduce the condition of American wage-earners to that of silver-standard countries, but a comparison of the above tables will show that instead of cheap money American wage-earners want more work, increased opportunities, better employment. A fall from our present monetary standard to a silver basis would revolutionize prices and possibly disturb our wage-standard to the injury of working people. They now enjoy the proud distinction of being paid the highest rate of wages, and a depreciation of our money might have the effect of debasing their condition. It would undoubtedly increase the cost of living, and former experiences demonstrate that wages would not rise proportionately. During the greenback inflation period the cost of living advanced 116 per cent, while wages slowly crept up 47 per cent. Since 1873 wages have advanced under our present monetary standard, while the cost of living has materially decreased. The following table, showing this advance, was compiled in Louisville. Ky., in the months of June and July, 1895, and rep. resents wages as they were paid in that city:

Mr. Bryan claims that the gold standard is a conspiracy against the human race; that it has made money more difficult to obtain, and that its evils are especially injurious to the masses. An investigation of the savings bank systems of the several gold-standard countries indicates to the contrary. It shows that the deposits of wage-earners increase each successive year and that they are becoming more and more thrifty and prosperous. Unfortunately, but few savings banks can be found in silver-standard countries. Consequently there is no data from which to make a comparison. The deposits of wage-earners in England during the last thirty years have increased more than twenty-fold. In 1894 they amounted to \$660,000,000,000, which, distributed among the 38, 786,633 inhabitants of Great Britain, would average \$17 per capita. The savings bank deposits of the French working people show an increase since 1882 of about 30 per cent. In 1895 they were about \$800,000,000,000, or \$28.13 per capita for a population of 38,228,969. The savings bank deposits of Belgium have increased from \$18 per family in 1880 to \$66 per family in 1894. Those of Holland have multiplied ten times in the last ten years and now amount to about \$15,000,000,000. The savings bank deposits of the United States have increased from \$549,674,358, or \$14.26 per capita, in 1870, to \$1,810,597,023, or \$25.88 per capita, in 1895. It is extremely doubtful if any such a thrifty showing could have been made under a silver standard.

Which shall we have after November; business, bread and blessings, or Bryan, bunco and bankruptcy? Bimetallism is out of the question. We must choose between the gold and silver standards. Coinage on government account and a monetary system on a gold basis enables us to circulate gold, silver and paper money at a parity. Coinage on individual account, as proposed by the silverite, deprives the government of the control of our money and turns it over to bullion producers. The ratio between gold and silver depends on the caprices of commerce, and thus far in the experience of mankind but one kind of metal money has ever circulated under free coinage. Inasmuch as silver is the in-ferior metal we would fall to a silver basis should our mints be opened to coinage on individual account. We could then only circulate depreciated silver and paper money. Take your choice. Sound money and financial safety or silver monometallism and a hop, skip and jump into financial hell.

City Brevities IN THE CAMPAIGN

Lewis Singer, thirty-five years old, fell from a wagon at the corner of Seventh and 0 streets northwest about noon yes-terday and was badly cut about the head. The police ambulance removed the victual o Freedman's Hospital.

Hamilton Mason, colored, was locked up at the Second precinct station last night by Policeman Martin on a warrant harging him with destroying some private property in Sam Lee's laundry, No. 1212 Thirteenth street northwest.

Traffic of the Chesapeake and Ohio Canal is very heavy now, the amount of coal coming through being something enormous. Dealers and canal men are rushing the coal through as fast as possible, to avoid the early closing of the waterway. The Commissioners yesterday notified a number of applicants for additional street lighting that compliance with their requests depended upon whether or not the abandoment of gas and naphtha lamps in other sections will warrant the extended

A rather acribus depression in M street, at the east end of the bridge over Rock Creek, has been occasioned by the making of sewer connections there. So serious did the depression become that the Traction Company had to brace up the street to a considerable extent.

The special meeting of the board of trustees of public schools, which was to have been held yesterday afternoon, to consider the adoption of a text book on vertical writing, for use in the city schools, was postpoued indefinitely. In the meantime the system will be taught without conv books. copy books.

copy books.

James Adams, colored, a laborer, living at No. 441 Franklin street northwest, received an urly cut in his arm last evening from a knife in the hands of this sister. He said that they were playing together and that the wound was accidentally inflicted. Two sutures were required to close the cut when he was taken to Emergency Hospital. gency Hospital. cricy Hospital.

Cycling Policeman J. A. Duvall has been kept tosy of late reminding riders that the police regulations regarding the uccessity of lights on wheels are not to be known. Last night two more "no light" victims were captured on Pourteenth street. There names are Robert Stawart and Albert Johnson. Both left \$2 collateral at the Second predict station.

PILOT HOUSES

Views of the Political Situation From Vari-

ous Official Standpoints. The Republicans call attention to the formation of clubs in four notate places within a few days. At Monroe City, the banner Democratic county of Missouri, a McKinley club of 160 members was organized last week, and at least two colored Republican clubs are being organized there.

organized there.

A kepublican club has just been organized with sixty members, which will be increased to 100 at the next meeting. In another Virginia town, Newport News a club has been organized, and is said to be in a prosperous condition. At Thayer, Mo. a Mckinley club or 140 members was organized last week, and includes a number of Democrats.

An official at Republican headquarters An official at Republican hendquarters calls attention to the somewhat striking coincidence that the Christian name of every member of the executive committee of the Republican Congressional committee has the letter "J." as its initial. The names are John, Joseph, Jeter, Jesse, James, and John, and the owners of the names are, respectively, Messis, Holl, "Cannon, Pritchard, Overstreet, Sherman, and Mitchell. The same official calls attention to the fact Chairman Pabcock, though an advocate of a pretective tariff though an advocate of a protective tariff to foster home industries, smokes Havana igars and lights them with matches made

Chairman Stevens of the untional silver committee, bases his claim that Iowa is not included in any list of alleged doubtful States west of the Mississippi river on a letter received yesterday from Secretary Waish of the Iowa Democratic committee. Mr. Waish quotes facts and figures which, Mr. Stevens says, convince him that the State is safe for Bryan.

It was inadvertently stated in The Times last evening that the birthday bouquet of roses presented to Senator Faulkiner by a quartet of his ejerks consisted of sixteen white flowers and a red one. the old rose was a yellow one, and the bouquet was meant to be symbolic of the free coinage creed.

The Republican Congressional committee has received a letter from M. E. C. Miles of Plano, Texas, which takes a hopeful view of the anti-silver campaign in that State. The letter is, in part, as follows.

"Representative Balley of Texas, spoke here on silver, and from remarks made by the people who listened to him, he made no votes and lost some that I know of. There is a strong counter current against the silver craze operating to the benefit of sound money. Butley announced his purpose to go to the State of Kentucky, and if he normers the same line of agraand if he pursues the same line of argu-ment in that State that he gave here he will make more McKinley votes than Sewall did to the G. O. P. in Maine.

This is the way a well-known Republicat politician regards the complexion of the Senate in the next session and the probable effect of an overwhelming Republican vic tory this fall on certain of the bolting sil-

ver Senators:

"The complexion of the next Senate will according to precedent be considerably, if not decisively, influenced by the result of the general election, even as to Senators whose terms of office are not affected whose terms of office are not affected thereby. Public opinion as expressed at the polls is bound to have its influence on public men, and an overwhelming victory for McKinley and Hobar, will, I think, bring about Republican control of the upper branch of Congress. The declarations of Senator Carter, of Montana, Senator Carter, of Montana, Senator Carter, of Montana, Senator Carter, of Montana, Senator Carter, Marketer, well as the inin favor of McKinley as well as the un-generous treatment of Senator Dubols, of Idaho, at the hands of the Popocrat and Democrat elements of his State, may retive the sentiment of these gentlemen as to their duty as legislators. All of which, to my mind, emphasizes the importance of rolling up a big majority for McKinley and Hobart. With a Republican president and a Republican House, the Senate may come up to the evident requirements of public

Vice Chairman Stevens of the silver com mittee, who returned to headquarters yes terday from the West, brings with him a terday from the West, brings with him a glowing report of the condition of affairs in that part of the country. He claims every State west of the Mississippi for Bryan with the exception of Minnesota. "The great buttle ground in this cam-

paign," said Mr. Stevens, "is Obio, Illinois, indiana and Michigan. I believe the Demo-crais have a good chance for carrying them and that Mr. Bryan will be elected to the next V residency of the United States."

State Chairman of the Texas Republican party, Mr. E. H. R. Green, was at Republican headquarters yesterday afternoon. He says that a committee consisting of three members each from the Populists of three members each from the Formass, sound money Democrats and Republicans has been appointed with plenary power to fuse or make such arrangements as will best result in casting the vote of that State against Bryan. He believes that the chances for McKinley's carrying the State are good and predicts that the electoral vote of Texas will be found in the Republican

column when it has been counted.

The combined opposition has gone as far, he says, as to put in the field a ticket pledged to McKinley and Watson. Mr. Green says his statement as to the probabl idle guess work, but that it is the result of a careful review of the situation by men who know the State thoroughly.

TOLL GATE RAIDERS.

Kentucky Free Turnpike Mob Out on a . Rampage.

on a Rampage.

Springfield, Ky., Sept. 21.—The free tumpike mob destroyed five toil gates Saturday night and three last night. These two raids only leave five gates standing in Washington county, the raiders having destroyed forty-three in all.

Saturday night the mob rode up the Tick Creek nike gates while it was Saturday night the mob rode up the Tick Creek pike gates while it was guarded by twelve men. The teader of the mob was ordered to take his men away or go to jail. The mob them eveded shotguns at the guards and forced them to surrender. The mob forced the guards to cut the gate down and drove them bear leave to town.

them back to town.

Two of the raiders, Joe Settles and Charles Miller, were in court today on the charge of destroying toll gates, but nothing could be proven against them and they were discharged.

JACKSON'S LAST CHANCE.

Final Argument in the Pearl Bryan Murder Case.

Murder Case.

Frankfort, Ky., Sept. 21.—Hon. L. J. Crawford, representing Scott Jackson, the alleged murderer of Pearl Bryan, and Commonwealth Attorney Lockhart arrived today to be present when the Jackson case was called in the court of appeals. Mr. Lockhart signified his willingness to submit on proof, but Crawford will insist on an argument of the case.

The attorneys appeared in the court of appeals room when the court convened, and after their requests had been considered, the court named October 1, as the day for final argument, on which the prisoner's life depends.

DEATHS OF A DAY.

Saratoga, N. Y., Sept. 21.—Arthur D. Seavey, ex-water commissioner and auditor of this place, one of the leading and most well-to-do citizens, died last night. most well-to-do citizens, died last night. He had been ill several weeks. He was born at Brunswick, Me., in 1831, and in 1849 went to California, where he formed the acquaintance of John W. Mackay. This acquaintance subsequently ripened into strong friendship. For seven years he worked in the mines. He afterwards conducted a mercantile business in Springfield, Cal. He amassed a large fortune and removed here in 1860.

Loudon, Sept. 21.—The Right Hon. George Denman, P. C., formerly a judge of the queen's bench division of the high court of justice, died today.

Montgomery, Ala., Sept. 21.—Dr. S. W. Averett, president of the Judson Institute at Marion, Ala. died at that place on Bunday.

Hebrew Holiday Observed With Services in Both Symgogues.

The Hebrew Festival of the Tabernacies The Hebrew Festival of the Tabernacies or Sucoth, began last evening with services in both synagogies in this city. Rabbi Stern presided over the meeting in the Eighth Streets synagogue, and Rabbi Samuel officiated at the orthodox tabernacle at the corner of Sixth and Gistreets.

Both services were devoted solely to the services were devoted solely to the services.

song and prayer. Another meeting will be held at 10 o'clock this morning in the be held at 10 o cock this horning in terformed congregation. This morning's meeting in the old temple will begin at 8 o'clock and continue until 11 o'clock Services will also be held in this house of worship this evening and tomorrow morning.

The present is distinctively a season of rejoicing and feasing in the series that mark the beginning of the Hebrew year. It will last for eight days and will be succeeded by the Feast of Laws. Two days of the latter are observed as absolute holi-

The observance of Sucoth is in com-The observance of Sucota is in com-memoration of providential manifestations during the wandering of the children of Israel through Egypt. They were com-pelled to errect temporary tests or booths and from this fact the time is at present ometimes called the Feast of the Booths.

The last day of the Feast of the Bootis.
The last day of the feast is also a holiday and will be appropriately celebrated in
the local synagogues.
Mrs. Shir-Cliff, the soprano, sang at last
evening's services in the Eighth street
temple and will be heard in the choir during the coming winter.

IRON AND STEEL PIPE CINCH. Leading Manufacturers in This Line

to Form a Combination. New York, Sept. 21.—Another combina-tion is about to be formed, and this is to consist of the wrought iron and steel pipe manufacturers of Pennsylvania. Representatives of the concerns interested will neet tomorrow at the Hotel Waldorf for that purpose, and if the pre-liminary arrangements are carried through the combination will be on the same lines as the Bessemer Steel Producers Associa-tion, which was formed in this city last spring

At the present there are thirty-nine plants

At the present there are thirty-line plants in America manufacturing wrought iron and steel pipe, cold drawn scanless tubing and steel riveted pipe.

It is understood that the proposed combination will include the wrought iron and steel plants in the country to the number of twenty-seven. About twenty-one mills are in working condition, and have a capacity of about 1,000,000 tons annually. The capital invested is very large, aggre-gating nearly \$50,000,000.

Wages Cut Down.
Woonsocket, R. I., Sept. 21.—The Lippite
Woolen Company today reduced the wages
of its employes 5 per cent, making an exception of those receiving \$1 a day or less. The mill is just starting its light-weight season and will be in full operation in about a fortnight.

Why Boers Fight Well. Having many chances at success proves often a disadvantage. Gen. W. F. Moly-neux, a fighter in the Transvaal, telli-"Campaigning in South Africa and Egypt" about going to the house of a Boer, upon the latter's invitation to become his guest on a deer hunt. The general arrived on

horseback, accompanied by one servant, Dismounting, he carried into the hous a hag containing what would measure a peck or so of common carridges. The Boerlooked at the bag in astonishment and exclaimed "You Englishmen must be very rich. Car-tridges cost sixpence cach here."
Rather mystified, and declaring that there are poor Englishmen, Gen. Molyneux asked:

Where are your cartridges?"
"In this," replied the Boer, tapping his

"Then you don't intend to do much shoot

ng?"
"Well, two spring buck are as much as I can carry."

The sequel was that the Boer got his two deer, one for caou cartridge, while the gen-eral fixed five shots and got one.—Harper's Round Table.
